

Gourmet Restaurant Notice

Welcome to Tokyo!

There is a restaurant near this hotel
where you can eat delicious Japanese cuisine.

"YUSHIMA-no-SABA"

Charcoal grilled mackerel is our speciality.

You can eat charcoal grilled
mackerel, salmon, and many other fish.

Also you can eat sashimi and other
Japanese traditional foods at dinner time.

Broiling fish over a charcoal fire helps get rid
of excess oil and water. Cooking by infrared
ray heating makes the fish crispy on the
outside and tender on the inside.

Charcoal grilling adds a unique flavor to the
foods.

You can watch the chef grill the fish while
you have a drink and relax.

We serve beer, whiskey, shochu, a wide-variety of Japanese sake, and other
drinks for you to enjoy.
